Key Pad

Assigned or Public Use

Assigned Use: User will be assigned a bike locker that has a special 4 digit code. When these lockers are in use, there will be a green "In-Use" indicator light.

Public Use: Any user will be able to create a special 4 digit code at random. When these lockers are in use, there will be a red "In-Use" indicator light.

*****THESE LOCKS ARE NOT WEATHERPROOF*****

Weatherproof Cover: Our electronic locks are not weatherproof, but can be used outside when using our weatherproof cover. (Optional)

Auto Unlock: Available for public use only. The programmer can choose to enable the auto unlock feature for 1 to 99 hours. This can easily be reprogrammed for changes in demand or circumstance.

Battery Life: Each lock has a 3-5 year battery life with a low battery indicator. Locks are powered by 4 premium AA or 2 9-Volt batteries.

This option includes a Door Hold/Check to assist with opening and closing the door, and also keeping the door open when in use/closed when not locked.

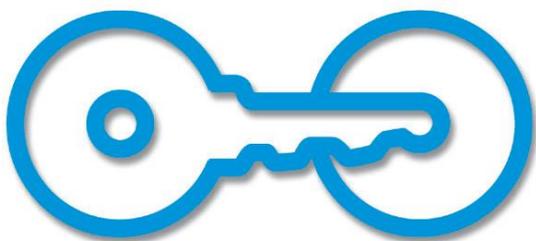

ADA Compliant Keys: Operates keypad using a blue key instead of using a code. The Accessibility User Key is fully compliant with the Americans with Disabilities Act (ADA) guidelines set by the US Access Board. Digilock recommends obtaining Accessibility User Keys for 5% of the total number of installed locks.

Locking systems comes with 1 **programming key** and 1 bypass **manager (master) key**

INSTRUCTIONS

- **To lock: Close the door, then press**
C [] [] [] [] O-TR
Any 4-digit code
- **To unlock: Press**
C [] [] [] [] O-TR
Same 4-digit code

RFID

Assigned or Shared Use

Assigned Use: User will be assigned a bike locker that will only work with a specific RFID key card. When these lockers are in use, there will be a green "In-Use" indicator light.

Shared Use: Any user assigned an RFID key card will be able to use any available locker under the shared use system on a first come, first served basis. When these lockers are in use, there will be a red "In-Use" indicator light.

*****THESE LOCKS ARE NOT WEATHERPROOF*****

Weatherproof Cover: Our electronic locks are not weatherproof, but can be used outside when using our weatherproof cover. (Optional)

Auto Unlock: *Available for shared use only.* The programmer can choose to enable the auto unlock feature for 1 to 99 hours. This can easily be reprogrammed for changes in demand or circumstance.

Battery Life: Each lock has a 3-5 year battery life with a low battery indicator. Locks are powered by 4 premium AA or 2 9-Volt batteries.

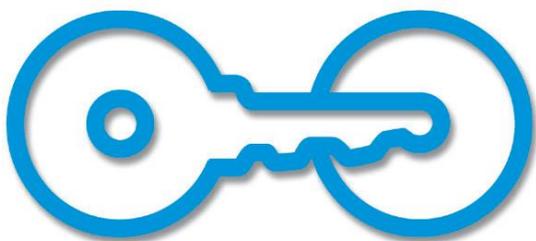

This option includes a Door Hold/Check to assist with opening and closing the door, and also keeping the door open when in use/closed when not locked.

ADA Compliant Keys: Operates the RFID using a blue key instead of a key card. The Accessibility User Key is fully compliant with the Americans with Disabilities Act (ADA) guidelines set by the US Access Board. Digilock recommends obtaining Accessibility User Keys for 5% of the total number of installed locks.

Locking systems comes with 1 **programming key** and 1 bypass **manager (master) key**

Already have an identification card or company card in use?

RFID Sticker: Mifare RFID stickers are available upon request, and can be placed on existing cards.
