

Door hold back/check system

This attachment will keep door open when parking or removing bike and also will keep door closed. Recommended for lockers with padlock & coin-operated locks. Keeps doors from swinging open with wind or closing if lockers are on a slope.

Contact us for styles and specifications on our large selection of **Bike Racks**

Logos & Emblems

For more information on our fiberglass production capabilities visit www.compositeplastic.com

Stand Out – Be Recognized

- Immediate recognition & awareness with your logo in view of the public or your employees.
- Logo becomes part of locker in manufacturing– not a painted-on after thought.
- With the same high quality gelcoat with UV inhibitors used in the finish of the lockers your logo can't be peeled or scrapped off by vandals.
- Many single color logos can be done at no additional cost with your locker order.
- Send the color and logo on a CD, diskette or print for scanning and we will take it from there.
